

EMORY
UNIVERSITY
SCHOOL OF
MEDICINE

Department of Human Genetics Division of Medical Genetics

Clinical Geneticists
Medical Biochemical Geneticists
Physician Scientists

The Division of Medical Genetics at Emory University is seeking ABMGG board certified/eligible candidates at the Assistant, Associate or Full Professor levels, depending on experience. Qualified applicants must be ABMGG board-certified or eligible in clinical genetics and/or clinical/medical biochemical genetics and will participate in patient care, teaching and research. **For applicants desiring a physician/scientist career, generous laboratory start-up funding is available.**

The DOHG has 52 full-time faculty members and NIH extramural funding exceeding \$11.3 million per year. The DOHG has a vibrant clinical program including numerous weekly general and specialized outpatient clinics and in-patient consultations in several metro Atlanta hospitals. We are the referral center for Georgia's newborn screening program with our nutrition section providing dietary management of patients with metabolic diseases. Within the Department is also the Center for Lysosomal Storage Diseases, which includes an enzyme replacement therapy infusion suite. Emory Genetics Laboratory provides molecular, biochemical and cytogenetic testing for hundreds of genetic diseases. The Department has ACGME-accredited clinical genetics residency and medical biochemical fellowship programs and offers training in all ABMGG laboratory subspecialties. There is an ACGC-accredited program that graduates 10 new genetic counselors a year. The unique combination of a well-established basic research faculty along with the comprehensive clinical genetics division, places the DOHG at the forefront of contemporary translational research and predictive health.

Emory University and hospitals along with the CDC are located in a lovely wooded Atlanta suburb. The Atlanta metropolitan area is home to 5 million people and has an active art, music, food, and cultural scene.

Interested candidates should send a CV, cover letter, and names of 3 potential references to:
